

## International cooperation in 2024

In 2024, the fifth annual international scientific and practical conference "School of Stroke 2024" was held, bringing together specialists from different countries and representatives of the stroke service of the Republic of Kazakhstan.

The conference addressed important issues related to stroke diagnosis, treatment, and rehabilitation, the state of the stroke service in Kazakhstan, and new innovative treatment methods. As part of the event, the organization Angels Initiative conducted a master class titled "Interactive Workshop on Emergency Stroke Care," which allowed participants to enhance their skills in emergency stroke assistance.
